SUMMARY

Product Designer with experience designing user-centered digital products across fintech, health, logistics, and consumer technology. Skilled in UX research, interaction design, wireframing, prototyping, usability testing, and design systems. Passionate about simplifying complex problems into intuitive experiences that drive business goals and improve user satisfaction. Experienced collaborating with cross-functional teams and delivering production-ready designs from concept to implementation.

EDUCATION

Lagos State University

Bachelor of Science (B.Sc.) in Business Administration

2018 – 2022

EXPERIENCE

UI/UX Designer

Oct 2025 – Feb 2026

HealthAI

- Designed end-to-end experiences for an AI-powered healthcare platform, including onboarding and authentication flows.
- Created user flows, wireframes, and high-fidelity prototypes for core product features.
- Conducted usability testing and incorporated user feedback to improve the overall experience.
- Collaborated closely with developers to ensure accurate implementation and design consistency.
- Maintained scalable design components and documentation in Figma.

UI/UX Design Intern

2025

HNG Internship

- Designed wireframes, user journeys, and interactive prototypes for web and mobile applications.
- Participated in design critiques and iterative feedback sessions.
- Worked with cross-functional teams to deliver user-focused solutions within tight deadlines.
- Contributed to product discovery and research activities to inform design decisions.

PROJECTS

TrustHire AI | AI-powered job verification platform that helps job seekers identify fraudulent job opportunities and make safer career decisions.

Cirql | AI-powered event networking application that enables conference attendees and professionals to connect and build meaningful relationships.

Skana | Fintech payment platform that simplifies transactions through username-based money transfers and scan-to-pay functionality.

Bank Buddy | Fintech super app for money transfers, airtime and data purchases, cable TV subscriptions, electricity bill payments, and betting wallet funding.

Lagago Logistics | Logistics tracking platform focused on shipment transparency, package visibility, and last-mile delivery management.
